2016-2018

I have done my schooling from Kendriya Vidyalaya which is the biggest group of schools in India.

PROJECTS

Project Name —

- *Natours*

-> This is a Frontend Project that I made with just pure SASS (CSS with superpower) and some basic HTML. It is a prototype of a travel site that books places in nature for people to visit and enjoy the essence of nature.

- *Library Bookkeeper*

-> This is a project which counts the frequency of a particular word and stores it in, I made this project using Django, HTML, SASS

- *My Blog Project*

-> This is a Full Stack Project which contains different information. It is a fully functional website and most probably you will be seeing this resume in this website only.
